#### **DETAILED ACTION**

#### Election/Restrictions

1. Applicant's election without traverse of Group I in the reply filed on 6/16/04 is acknowledged.

### Specification

- 2. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.
- 3. The abstract of the disclosure is objected to because the elected invention is drawn to a component mounting method, not to a component mounting apparatus. Correction is required. See MPEP § 608.01(b).

## Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.
- 5. Claims 1 and 8 are rejected under 35 U.S.C. 102(e) as being anticipated by Kira et al (US 6122823).

Kira discloses in col. 6, lines 12-15 that the chips are temporarily attached to the board 11. Subsequently (during a pause), these chips are permanently attached using the thermocompression heads. These heads are maintained at a predetermined temperature by the control unit 51 in response to the sensor 50 by controlling a heater 49.

Application/Control Number: 10/007,821

Art Unit: 3729

Allowable Subject Matter

6. Claims 2-7 are objected to as being dependent upon a rejected base claim, but would be

allowable if rewritten in independent form including all of the limitations of the base claim and

any intervening claims.

Conclusion

7. Please provide reference numerals (either in parentheses next to the claimed

limitation or in a table format with one column listing the claimed limitation and another

column listing corresponding reference numerals in the remark section of the response to

the Office Action) to all the claimed limitations as well as support in the disclosure for

better clarity (optional). Applicants are duly reminded that a full and proper response to

this Office Action that includes any amendment to the claims and specification of the

application as originally filed requires that the applicant point out the support for any

amendment made to the disclosure, including the claims. See 37 CFR 1.111 and MPEP

2163.06.

8. Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Rick K. Chang whose telephone number is (703) 308-4784. The

examiner can normally be reached on 5:30 AM to 1:30 PM, Monday through Thursday.

The fax phone numbers for the organization where this application or proceeding is

assigned are (703) 872-9302 for regular communications and (703) 872-9303 for After Final

communications.
